DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because: in the last line, “the re-transmits” apparently should be “then re-transmits”. Correction is required. See MPEP § 608.01(b).

2. The disclosure is objected to because of the following informalities:

Fig. 7, most notably step 760 and the specification’s discussion thereof (p. 22+), is logically awkward, confusing, and apparently incorrect and/or inadequate. Step 760 apparently functions to form a number of “missing content” records equal to the number of identifiers in the manifest if a single received packet identifier does not match any content identifiers in the manifest, the same “missing content” record-making process apparently being repeated (770, 780, 730) for each identifier on the manifest. Iterations through step 760 thus appear to compile a list of “missing content” records comprising every content identifier in the manifest for every single packet that apparently shouldn’t have been received in the first place, all of which have nothing to do with processing of packets that actually should be received, i.e. packets that are consistent with the manifest. Apparently nothing at all is done if the received packet identifier matches an identifier in the manifest (730, 740).

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 57-67 and 75-78 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 57: "transmitting ... by one or more selected from broadcasting and narrowcasting" apparently should be "transmitting ... by one or more transmission methods selected from broadcasting and narrowcasting" or the like.

Regarding claim 75: "re-transmitted ... by one or more selected from broadcasting and narrowcasting" apparently should be "re-transmitted ... by one or more transmission methods selected from broadcasting and narrowcasting" or the like.

Allowable Subject Matter

5. Claims 68-74 are allowed.
6. Claims 57-67 and 75-78 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 2133

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
